

STUDENT LED CONFERENCES

Student led conferences are held **every November and April**. It is an opportunity for students to share their goals, their successes and things they are working on with their parents. More information will be sent home prior to conference dates. **It is very important that every student be given the opportunity to lead their conference with their parent(s) therefore conferences are mandatory.** If the scheduled dates do not work for your family, please call the school to reschedule and an alternate day and time will be arranged.
